

INNOVATIONS IN PROSTHETICS FOR YOUNG PEOPLE

Me and my limb

Collecting your experience of
living with a prosthetic

Child survey

About starworks

We are a group of people who are looking to develop new things for children and young people who have prosthetic limbs, in order to do this we want to find out about your experiences of living with your limb.

This workbook

We would like to find out about your experiences of having a prosthetic limb. There are a series of activities and questions to complete, use the spaces provided for your responses. Please use pens, crayons, felt-tips etc to write or draw in the boxes after each question.

About you

Draw a picture to tell us about yourself below

A large, empty rounded rectangle with a thin grey border, intended for a drawing.

Your limb

Draw your limb below, does it have a name?

A large, empty rounded rectangle with a thin grey border, intended for a drawing.

can you think of
three words to
describe your
limb? Write them
on your picture

These are the things i like most about having a limb

A large, empty rounded rectangular box with a thin black border, intended for writing the user's response to the first question.

These are the hardest things about having a limb

A large, empty rounded rectangular box with a thin black border, intended for writing the user's response to the second question.

Having a limb is super because

Draw a superhero who has your limb here: What superpowers do they have? What can they do that no one else can?

Daily life

Tell us about your average day. Try and think about what happens from first thing in the morning to going to bed at night.

Are there any tricky points with your limb during the day, show us where and tell us about them

A visit to...

Use the space below to describe what happens when you visit the hospital, GP, limb centre or other professional interaction in connection with your limb.

What do you like the most about these interactions / visits?

What do you dislike about these interactions / visits? Tell us about it.

In the future

What do you want to do when you grow up? What would you like your limb to be like to help?

**Thank you for taking part you
