

INNOVATIONS IN PROSTHETICS FOR YOUNG PEOPLE

## **Your child's limb**

Collecting your experience  
your child prosthetic

**Parent survey**

# About starworks

We are a young peoples prosthetics research collaboration and will bring children and their families together with key opinion leaders from the NHS, Industry, Clinical Academia and leading National Research Centres with capabilities in child prosthetics.

The collaboration will increase research across the system in order to accelerate the translation of new inventions and developments in child prosthetics into everyday use. This initiative will be centred on the needs of children and their families as well as the NHS and will ensure there is the ideal balance of 'clinical pull' and 'technical push' to create an energetic environment in which to innovate and to partner with industry.

## This workbook

We would like to find out about your experiences of your child's prosthetic limb. There are a series of questions to complete, use the spaces provided for your responses. Please give as much detail as you feel able to. We encourage you to answer all the questions if possible, but if you choose not to answer any thats ok.

# About you

Your name(s)

-----

Relation to child

-----

Affected limb

-----

Contact information (if you are happy to be contacted further)

-----

-----

-----

**Because my child has a limb they can**

**Things my child finds hard with their limb**

**My child gets frustrated when**

## Daily life

Think about an average day with your child, how does their limb affect you? Does it have an impact on your work, home life, family time or time with friends?

A large, empty rounded rectangular box with a thin black border, intended for writing a response to the question above.

## Our Story

How did your child get their limb? Have they had it since birth? Can you remember how many different ones they've had? Tell us your story or draw a time line

Are there any high or low points on your journey you would like to tell us about?

## A visit to...

Use the space below to describe what happens when you visit the hospital, GP, limb centre or other professional interaction in connection with your child's limb.

What do you like  
the most about  
these  
interactions/  
visits?

What do you  
dislike about  
these interactions  
/ visits? Tell us  
about it.

**Something we would do differently is**

**A challenge we've overcome is**

**A piece of advice i would give to others**

**Thank you for taking part you  
can return your survey by:**
